BrianMc's comment on a member from Norway's hair test made me change my mind for posting my hair test made 3 years ago. I have not chelated a lot unfortunately after the test so it may not be completely useless to post it now. Actually I thought I lost it and found it in my computer a few months ago. My life has been an ordeal for at least the last 7-8 years... it is improving with Andy's protocol chelation.

I'm considering renew my hair test soon but for the time being I'd like to have comments on my old test that you can find with the following link:

http://www.livingnetwork.co.za/files/hairtest_913.pdf

A brief history of exposure with mercury and other metals:

Vaccines (I can not be very sure and some of them I don't remember. but at least the followings):

Meningococcal meningitis

Tuberculosis

Measles

Smallpox and/or Chickenpox

Anti hépatite A

Polio

Got them in Beijing, China in 60's-70's.

ROR

Anti hépatite B

And at least 3-4 others that I don't know or remember the name, including a flu and travel shots. At least 6 of them were injected in Paris, France by a Canadian physician from 2000 to 2004. With every injection of vaccine I saw my health devastated dramatically. 3 severe spasmodic crises etc.

Inhaled mercury from broken thermometer when about 9-10 year old and broken light bulb since then a lot of strange symptoms that I understand now that was to do with nervous system. Had an inexplicably downturn in school performance not long after that. Lots of difficulties to concentrate. Extremely shy and kind of autistic profile as I understand now.

Muscles and joints pain and very easy sprain from around 10 year old.

An encouraging improvement after a short period of YMCA traditional wet sauna, in Montreal, Canada in 1996. I don't remember I had any silver color dental filling in Canada but had a tooth dragged out in Quebec, the second one right after wisdom teeth.

And at least 8 complete anesthetic shoots for different operations, colonoscopies etc. that I consider an important source of heavy metal intoxication in Beijing, China, Quebec, Canada and in Paris France.

13 amalgams filled in France from 2000 to 2007 (removed with Dr. Huggins' protocol in Bristol 2 months after this hair test)

In 2004 I frosted an industrial paint black table without wearing a masque, when I realized that all the room was covered with a layer of black power or dust, it was too late, I had already breathed god knows how much lead!!!

one Titanium implant in 2007 and still have it now.

A dramatical inflammation with 2 arms and all over my body by the end of 2007 and only after I practiced gluten and caséine free diet and with few basic supplements that I feel a lot better

I have a lot, a lot symptoms on the check list and I'm extrememly "house bound" lacking of energy and endurance.

Uptill the hair test I had repeated unbelievable inappropriate or bad chelation, starting with four IV DMPS in 2008 with all my amalgams in my mouth, an hysterectomy right after the second shot of DMPS. And within a year almost one bottle of Jim Humble's MMS with all my amalgams in the mouth!! And 2 oral DMPS of 250mg within 2 months and the worst with ALA small dose BUT with all the amalgams in my mouth!!!

Supplements taken uptill the hair test are the basic like (as I can recall for what it was more than 3 years ago)

probiotic

Vitamin C 1 -2g or more per day

B complexe 50 one capsule split into 4 per day

Magnesium 4x250mg per day

Glutamine 1 g per day

I-Tyrosine 500mg per day

flax oil

essential oil for yeast infection

homeopathy monilia albicans in 15ch one dose per week

vitamin E

zinc 30 mg per day

lithium 1mg per day

don't have any information about my mother's dental work. She died from colon cancer.
