Zirconium (Zr)	0.020	0.030 - 0.40	

Hair Test 1116

What are your current symptoms and health history?

My daughter had typhoid fever at the age of 3.5 years. She lost her speech and mobility but was still attached to us. Then she got her vaccines at a age of 4 and Ever since then, she continuously regressed and had social withdrawal and lost all attachments with the parents . She had loss of speech, and became very hyper with lack of attention. Later she developed stemming, and tics/tourette.

2 Dental history (Wisdom teeth removed and when? Any other extractions. First root canal placed? Braces? First amalgam etc...)

None

3. What dental work do you currently have in place? What part of the dental clean-up have you completed?

None

4 What dentistry did your mother have at any time before or during pregnancy?

Mother have dental amalgam, I am not sure if those are silver amalgams or some other kind. We are planning to remove them soon.

5. What vaccinations have you had and when (including flu and especially travel shots)?

She was given all the vaccines but felt that we lost her after the 4th year vaccines.

6. Supplements and medications (including dosages) taken at time of hair test, or for the 3-6 months before the sample was taken?

She is taking Kelp (1 capsule), Klaire Lab Vitaspectrum (2 Cap), digestive enzymes (1 Cap)

We stopped cod liver oil after finding out that she have high mercury.

We also stopped, chlorella, cilantro, Spirulina etc.

We are also doing hot sauna everyday.

7. What is your age, height and weight?

She is 6.5 years of age and her height is 48 inch or 4 feet ,,, wt is 45 pounds.

8. Other information you feel may be relevant?

Miami children Neurologist Mark Epstein states that mercury does not cause any harm to the children, and he does not know how to get rid of it. We feel that she gets constant seizures due to which she regresses. Her vocabulary has dropped from a 1000 words to 10 words. We have been struggling for the last 3 years with my daughters health. We have tried so many things and been to a huge list of doctors to finally find out about mercury.

9. What is your location – city & country (so that we can learn where certain toxins are more prevalent).

Presently we live in Boynton Beach, Florida USA
